Mission

As a software engineer with a background in graphic design, I bring a unique blend of creativity and technical expertise to my work. I am passionate about writing high-quality code that not only functions seamlessly, but also delivers an exceptional user experience. My focus on code quality and testing ensures that my applications are reliable, secure, and scalable.

I stay up-to-date on the latest technologies and industry best practices to produce innovative solutions that drive business success. Whether working independently or in a team, I am committed to delivering results and exceeding project requirements. With my strong work ethic and collaborative nature, I am confident in my ability to contribute to any software development team.

Skills/Tools

Engineering	Design
ReactJs / React Native / Redux / Ember / Angular Javascript (ES6), Typescript NodeJs GraphQL HTML, CSS, SCSS Cypress / Jest	Typography Color Theory Layout Sketch Figma Adobe Creative Suite

Work Experience

Logic Monitor   **2021-10-11 — Current**
